**Deafness Cannot be Cured**  
by local applications as they cannot reach the  
diseased portion of the ear. There is only one way  
to cure deafness, and that is by constitutional re-  
medies. Deafness is caused by an inflamed condition  
of the mucous lining of the Eustachian Tube. When  
this is inflamed, it causes a ringing sound or  
perfect hearing, and when it is entirely cured,  
deafness is cured. It is a simple matter, and  
can be taken out and this tube restored to its normal  
condition. It is a simple matter, and can be taken

During the civil war, as well as in our

the most troublesome diseases the army  
had to contend with. In many instances  
it became chronic and the old soldiers  
still suffer from it. Mr. David Taylor of  
Wind River, Green Co., Pa., is one of  
these. He uses Chamberlain's Colic,

HEARD AND READ.

Being a collection of previsions and accounts  
by our editors.

"Do you consider it selfish for a man  
to take a vacation trip by himself?" "Not  
at all, Simpson; think what a rest your  
wife will get?"—Chicago Record.

The Sugar Cane Scissors long and  
reduces the distance from England to  
India nearly 1000 miles for ships.

"Heaped up, pressed down and running  
over" describes the measure of prosperity  
which the 300,000,000 bushels of corn  
means to Kansas.

First Girl.—Do you see that handsome  
fellow by the piano. I rejected him once.  
Second Girl.—That's nothing, dear. I  
rejected him twice.—Stray Stories.

"I've come to tell you, sir, that the  
photographs you took of me the other day  
are not at all satisfactory. Why, of my  
husband looks like an ape." "Well,  
madam, you should have thought of that  
before you had him taken."—Tit-Bits.

An Arkansas newspaper contains the  
following advertisement:—This hotel  
will be kept by the widow of the land-  
lord, Mr. Brown, who died last summer  
on a new and improved plan.

Under boss rule it is next to impossible  
to secure an honest expression of the  
sentiment of the people, and the best  
efforts of the voters are often thwarted  
by the manipulators of party machinery.

There are few things in life that cause  
such bitter and lasting knowledge  
that we have been misinformed—that  
in some moment, all unwittingly, we  
have conveyed a false impression of  
ourselves to the mind of one whose re-  
spect and friendship we value.

Parson.—Does you think you kin keep  
in de strait and narrow path now, Bro-  
der Johnson?  
Broder Johnson.—I reckon I kin, pa-  
son. Of dey ain't no watermillin  
patches erlong de road.

Nature to me is beautiful in her con-  
trasts as well as harmonies. I love to  
walk among her scenes, and be taken by  
surprise at some unexpected freak of her  
playful wildness. How time and com-  
monplace would seem, did she work  
with geometrical precision; or with rule  
and compass always in hand.

The care of the person is the beginning  
of good manners. Every one who  
consults his own well-being, his dignity,  
and employment, by his care of himself,  
but he also fulfills a social duty. Every-  
one should do the best he can for him-  
self, for his own sake, and to avoid  
giving pain to, or to promote the happi-  
ness of others.

Loyalty to the government is our  
national creed. We follow, all of us,  
one flag. It symbolizes our purpose and  
our aspirations; it represents what we  
believe and what we mean to maintain;  
and wherever it floats it is the flag of the  
free, the hope of the oppressed, and  
wherever it is hoisted, at any sacrifice, it  
will be carried to a triumphant peak.

The collecting fund may be carried to  
extremes. A man in Baltimore offered a  
saler who served with Dewey \$100 for  
his medal, and was not only knocked  
down, but could not persuade a policeman  
to arrest the saler.

A gentleman of Baltimore who has  
been studying and comparing hold-  
ing has made a comparison of the  
weight of paper to the weight of food  
supplies purchased for a family and in  
one day's purchases found that the paper  
wrappings amounted to about 10 per  
cent of the total.

The Portland Telegram says that more  
young men are learning trades in the  
penitentiary than outside of it, because  
we are trying to make lawyers and clerks  
out of material intended for blacksmiths,  
carpenters and other trades of mechanics.

Protect the Beasts From Abuse.

A load of lumber, a boy driver, a steep  
hill. The horse discouraged, slowly pull-  
ing up the hill. Impatient boy with a fence  
rail belabors the horse. At this uncer-  
tainly an impatient young woman  
rushes out from her piazza, and grabs the  
fence rail from the boy's hand and with  
fervid eloquence gives him her  
opinion of his method of driving. The  
boy shame-faced yields the reins to the  
fair lady who pats and encourages the  
jaded steed and then leads her up the  
tollstone hill and soon the team is un-  
loaded. We hope the boy took the lesson  
to heart.

Grain-O Brings Relief

to the coffee drinker. Coffee drinking is a  
habit that is universally indulged in  
and almost as universally injurious.  
Have you tried Grain-O? It is almost  
like coffee but the effects are just the op-  
posite. Coffee upsets the stomach, ruins  
the digestion, effects the heart and dis-  
turbs the whole nervous system. Grain-  
O cleans up the stomach, aids digestion  
and strengthens the nerves. There is  
nothing but nourishment in Grain-O. It  
can be otherwise. 15c and 25c per pack-  
age.

Try Allen's Foot-Ease.

A Mother Tells How She Saved Her  
Little Daughter's Life.

I am the mother of eight children and  
have had a great deal of experience with  
medicines. Last summer my little daughter  
suffered from cholera in its worst form.  
We thought she would die. I tried every-  
thing I could think of, but nothing  
seemed to do her any good. I saw by an  
advertisement in our paper that Chamberlain's  
Colic, Cholera and Diarrhoea Remedy  
was highly recommended and  
sent and got a bottle of it. It proved to  
be one of the very best medicines we  
ever had in the house. It saved my  
little daughter's life. I am anxious for  
every mother to know what an excellent  
medicine it is. Had I known it at first it  
would have saved me a great deal of  
anxiety and my little daughter much suf-  
fering.—Yours truly, Mrs. Geo. F. Bur-  
roughs, Liberty, N. Y.
